

CAPE MAY COUNTY HIGH SCHOOL CHILD STUDY TEAM

Understanding Our Philosophy On and Programs of Special Education

Here at Cape May Technical High School we enable all students to be successful. We approach education by looking at the individual and determining the best way to support their needs. As we prepared students for their futures, our goal is to provide them with the skills necessary to live a quality life following graduation. Cape May Technical High School emphasizes the importance of the “whole” student. At CMCTHS we focus not only on academic learning, but social and emotional learning as well. Teachers are encouraged to approach the unique learning of all students in a variety of ways. CMCTHS provides many programs to student in need. In addition to support in the classroom, we also offer tutoring, counseling services, related services, and extracurricular activities. Our goal is to foster an inclusive environment in which all students are free to learn and grow. We pride ourselves on the personal ownership each staff member takes in making the experience of CMCTHS a positive one.

INCLUSION FOCUSED

**INDIVIDUALIZED
INSTRUCTION DRIVEN
BY STUDENT NEED**

**EMPHASIS ON
COLLABORATION
BETWEEN HOME AND
SCHOOL**

**COMPASSIONATE AND
DEVOTED TEACHERS**

**GOALS OF STUDENT
PERSONAL SUCCESS**
